

Rapidly find care home vacancies across England

Avoid making speculative calls to care homes to check for vacancies. The Capacity Tracker is fast, secure and very simple to use, helping reduce the time taken to find the best care home for individuals.

Reduce the time taken to discharge individuals where a care home has been identified as the right place of care.

Quickly find long and short stay vacancies nationwide to reduce the number of speculative calls being made to care homes.

Analyse DToC performance information that provides market oversight reporting through a comprehensive reporting suite.

Makes care home vacancies visible nationwide. Easily updated within 15 seconds anytime, anywhere.
